

NOT YET COMPLETED

DISARMAMENT OF CUBAN REBELS IS PROCEEDING VERY RAPIDLY.

TURNING OVER MANY RIFLES

INSURGENTS SURPRISE GOVERNMENT BY NUMBER OF GUNS SURRENDERED.

Havana, Oct. 6.—While the disarmament of the rebels will not be completed Saturday night, it is now confidently expected that the entire operation will be finished by Monday, with the exception of Puerto Principe province, which has been less affected than any other province by the rebellion, but which is now a favorite region for marauding bands, which should more correctly be called bandits than rebels.

Although the surrender of guns has not been made compulsory either by the provisional government or the disarming commission, rebel commanders have all given their followers to understand that it was expected and that the laying down of their arms was a matter of duty. The result of this has been that the number of rifles surrendered is larger, in proportion to the number of men disbanded, than the government expected. For instance 800 rebels disbanded in Pinar del Rio province have turned in 600 guns. Governor Taft regards this proportion rather better than the average, but reports from Santa Clara indicate that nearly all the guns of General Guzman's command have been surrendered. A great majority of the rebel rifles are old and poor and many dilapidated weapons have been turned in.

All the Rebels Disarmed.

In Pinar del Rio practically all the rebels have been disarmed and have returned to their homes. In Southern and Western Havana the work of disbanding is going on steadily and probably will be completed by Saturday night. Assistant Secretary of State Bacon and Captain McCoy will visit Eastern Havana and hope to complete disarmament there without loss of time. General Montero, commander of the forces in Eastern Havana, visited the palace Friday and agreed to the disarmament conditions.

Matanzas province has no insurgents, with the exception of a few of Montero's followers. In Santa Clara province disarmament is going vigorously on and the disarmament commissions and the provisional government are received with every evidence of good will. Disarmament has been completed in Santiago province, with the exception of small forces in the vicinity of Manzanillo, who will disband soon.

Governor Taft says he believes the only region where there is a possibility of trouble to be Camaguey. Cattle-lifting and depredations to other property is going on in this section.

Bad Stomach Makes Bad Blood.

You can not make sweet butter in a foul, unclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be torpid, sluggish liver and bad, impure blood.

Medical Discovery is just such as best serve to correct and cure all such derangements. It is made up without a drop of alcohol in its composition; chemically pure, triple-refined glycerine being used instead of the commonly employed alcohol. Now this glycerine is of itself a valuable medicine, instead of a deleterious agent like alcohol, especially in the cure of weak stomach, dyspepsia and the various forms of indigestion. Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of it:

"In dyspepsia it serves an excellent purpose. It is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs; especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric acidity. It is useful in chronic intestinal dyspepsia, especially the flatulent variety, and in certain forms of chronic constipation, stimulating the secretory and excretory functions of the intestinal glands."

When combined, in just the right proportions, with Golden Seal root, Stone root, Black Cherry bark, Queen's root, Blood-root and Mandrake root, or the extracts of these, as in Dr. Pierce's Golden Medical Discovery, there can be no doubt of its great efficacy in the cure of all stomach, liver and intestinal disorders and derangements. These several ingredients have the strongest endorsement in all such cases of such eminent medical leaders as Prof. R. Bartholow, M. D., of Jefferson Medical College, Philadelphia; Prof. Robert A. Hare, M. D., of Medical Department, University of Pa.; Prof. Lawrence Johnson, M. D., Medical Department, University of New York; Prof. Edwin M. Hale, M. D., Hahnemann Medical College, Chicago; Prof. John M. Scudder, M. D., and Prof. John Kim, M. D., Authors of the American Dispensary, and scores of others among the leading medical men of our land. Who can doubt the curative virtues of a medicine the ingredients of which have such a professional endorsement?

Constipation cured by Doctor Pierce's Pleasant Pellets. One or two a dose.

Not Smooth Sailing.

The disarming operation conducted in Western Havana by Major Eugene F. Ladd of the disarmament commission was not all smooth sailing. After the disarming of General Del Castillo's personal escort, which produced fifty guns, Major Ladd proceeded to disarm the men of Del Castillo's brigade commanders. On meeting General Arenela at Santiago de las Vegas, Major Ladd was told that his force of 500 had already dispersed but that 150 guns would be turned over in the evening. When Major Ladd returned, however, only forty guns were forthcoming. Major Ladd suspected the subordinates of concealing weapons, and threatened to take up the matter with Governor Taft. The subordinates at once promised to produce the rest of the guns.

The force under General Guas was disarmed to Major Ladd at San Antonio de los Baños. General Guas wept over the fact that he had to default in his promise to his followers that they could keep their guns. He said, however, that he was willing to do this to show his confidence in the intentions of the American government.

Clashed With Volunteers.

General Guas has promised to disarm the forces of Rodolfo and Rafael Castillo, his subordinates, who are encamped 500 strong near Guiría. Detachments of these forces have had several clashes during the past two days with 200 government volunteers stationed at Guiría. As a result of this ill feeling the families of Guas' followers, residing in Guiría, have been badly treated by the volunteers. The men disarmed do not dare to return to Guiría. Major Ladd has promised to report this matter to Governor Taft and Guiría will either be garrisoned by marines or the volunteers there will be disarmed and disbanded.

The last of Pino Guerra's force entrained Friday evening at Rincon. It has been agreed that all the ex-insurgents will be permitted to keep the horses ridden by them in the campaign. In order to prevent substitution on the way home all the horses have been branded with the marks of the respective commanders. This, however, will not prevent the original owners from bringing claims for their animals or the value thereof against the government.

American Minister Morgan has received many claims from Americans for losses of animals and other damages. These he will present to the provisional government.

In response to the criticism made by Americans that the Cuban flag was flying over the palace while that building is being occupied by an American governor, Governor Taft said:

"I am here working for the Cuban republic; therefore, the Cuban flag will fly as long as I am here in that capacity."

REBELS MUSTERED OUT.

But Only One-Fifth of Those at Santiago Gave Up Their Arms.

Santiago, Cuba, Oct. 6.—The mustering out of the revolutionists here has been completed. The work was conducted by members of the disarmament commission. Only one-fifth of the men turned in their rifles, the others claiming that their guns were their personal property. Confidence has been largely restored and business has improved.

Troops Ready to Go to Cuba.

Newport News, Va., Oct. 6.—More than 2,000 troops are now encamped above this city awaiting transports to take them to Cuba. The transport Tampa has reported here and is expected to sail in the morning with the Washington hospital corps and other troops.

Killed by an Automobile.

New York, Oct. 6.—Owing partly to the crush of automobiles proceeding to the Vanderbilt cup course William Stadler was killed in Long Island City and George Wydamer was injured. They were crossing a street when they were struck by a large touring car owned by William M. Woods of Boston.

RUSSIAN MAIL TRAIN ROBBED.

Armed Band Routs Guard and Secures \$125,000.

Ufa, Russia, Oct. 6.—An armed band numbering forty men held up a mail train near the bridge over the Bjela river. After killing a soldier and wounding three others who were in charge of the mail the robbers decamped with \$125,000.

First Thermometer.

The first thermometer was made in 1621 by a Dutch physicist named Cornelius Van Drebbel and consisted of a tube filled with air, closed at its upper end and dipping at its other extremity, which was open, in a bottle of nitric acid diluted with water. As the temperature rose or fell the air in the tube increased or grew less in volume and consequently the liquid descended or rose. This instrument is now known as an air thermometer, but as its measurements were based on no fixed principle it was of little use.

LOUISIANA CYCLONES

CAUSE THE LOSS OF SIX LIVES AND THE FATAL INJURY OF NINE OTHER PERSONS.

PROPERTY DAMAGE IS HEAVY

SUGAR CANE AND COTTON CROPS BLOWN DOWN AND BUILTINGS DEMOLISHED.

New Orleans, Oct. 6.—This region Friday was the center of cyclonic disturbances, at least three of which were tornadoes and caused the loss of six lives, with nine persons fatally injured. About daylight heavy storms broke throughout the country within 100 miles west, north and east of New Orleans. Reports of sugar cane and cotton crops blown down or sugar mills demolished are coming in from this entire section. The damage, including that done by New Orleans, is placed at over \$1,000,000.

The worst of the tornadoes was north of New Orleans, where it devastated portions of three parishes. New Orleans was visited by another tornado and another passed north of Biloxi on the Gulf coast.

The first tornado struck west of Baton Rouge parish about 6 o'clock, killing Mrs. Theodule Forel and her daughter, Mrs. White. Mrs. Forel's body was found in a field near her demolished house. Two children in Mrs. Forel's house were fatally injured and five men were injured in the collapse of a sugar refinery on the St. Delphie plantation. Baton Rouge was slightly damaged.

Fifteen Buildings Demolished.

In St. James parish an unknown woman was killed, while Mrs. H. R. Weber, her daughter, Mrs. John Meyer, and a negro were reported fatally injured. Fifteen buildings were blown completely down in this parish. At Pontchartroula, which the tornado reached about 7 o'clock, George Hawes and son were killed in the collapse of their house and a daughter died of her injuries. One other Hawes child was fatally injured. A dozen others also were injured.

Another tornado struck New Orleans about 8 o'clock. While no lives were lost here, property damage reached \$500,000, and about 50 persons were injured, one fatally. Fully 800 buildings were damaged. Most of the demolished buildings were negro cabins, and it was here that nearly all the injuries occurred. The path of the tornado through the city was about eight miles long, entering from the Mississippi river at Audubon park and traveling northwest to Marengo and Carondelet streets and then after a circuitous course to Gravier and Magnolia street, it went northward out of the city. In places the storm's path was about thirty feet wide.

The tornado's course was undulating, some buildings being skipped entirely, as it bounded skyward. Frequently it demolished buildings on one side of the street while not an object on the other was disturbed.

Near Biloxi, Miss., the third tornado swept through the woods, demolishing part of a lumber train and injuring two men.

Tornado in Alabama.

Mobile, Ala., Oct. 6.—A tornado passed over the Mobile and Ohio railroad tracks between Kushler and Mauvella, Ala., about twelve miles from Mobile. So far as known no lives were lost but the section covered by the storm was swept clean of trees, fences and houses.

FOOT BRIDGE COLLAPSES.

One Wisconsin Student Killed and Several Others Injured.

Menominee, Mich., Oct. 6.—While a party of twenty-five students of Oconto, Wis., high school were standing on a foot bridge at Oconto Falls, Wis., watching the falls, the structure collapsed, hurling the whole party forty feet into the stream.

William Ballou, aged fourteen years, was killed and Viga Sentil, Hazel Denizen and Frank Donlevy were seriously injured. Professor Newcomb, the instructor, was badly hurt and several others were slightly injured. Twenty-five other students had left the bridge just before it fell.

Wins Suit for Life Insurance.

St. Louis, Oct. 6.—A suit by George C. Rankin, receiver of the First National bank of Niles, Mich., against the New York Life Insurance company for \$7,736 insurance on the life of George A. Kimmel, was decided in his favor by a jury in the United States circuit court here. Kimmel, who was former president of the Farmers' State bank of Arkansas City, Kan., mysteriously disappeared in 1898.

BLOW TO TARIFF REVISION.

Delivered in Massachusetts Republican Convention.

Boston, Oct. 6.—A blow to immediate tariff revision and to the champions of increased reciprocity trade schedules, led by Eugene N. Foss, was delivered at the Massachusetts Republican convention, which adopted without remonstrance a platform calling for such tariff changes as might be found necessary from time to time, with the understanding that they be applied to all sections of the country and to all industries. Harmony prevailed at the convention, which renominated by acclamation a state ticket composed entirely of men now in office.

The convention cheered Attorney General Moody repeatedly. As chairman of the committee on resolutions he took a prominent part in the proceedings, and after he had read the platform, the other members of the platform committee reported a plank approving his national accomplishments, especially his efforts toward carrying out the provisions of the antitrust and interstate commerce laws.

The platform expressed especial commendation of President Roosevelt. The administration of Governor Guild was approved. The public ownership of railroads was opposed.

Big Auto Race On.

Mineola, N. Y., Oct. 6.—Seventeen high power automobile racing machines were started at 6 o'clock Saturday morning in the third international race for the William K. Vanderbilt, Jr., cup. The course is practically a rectangle measuring 29.21 miles from start to finish along the outer lines. The course will be traversed ten times, making the distance of the race 297.1 miles.

TWENTY-NINE BODIES

RECOVERED FROM WEST FORK OF POCAHONTAS COLLIERIES COMPANY MINES.

Bluefield, W. Va., Oct. 6.—Twenty-nine bodies have been recovered from the west fork of the Pocahontas Collieries company mine at Pocahontas, Va., and a conservative estimate places the total number of dead at seventy.

The rescuing party has reached the scene of the explosion but the immense amount of debris and wreckage has hampered the search for bodies. There is no evidence thus far of fire.

There is nothing authentic to be learned from any source as to the actual number of men who perished in the disaster. Usually there are about 100 miners in the section affected by the explosion, exclusive of the drivers, trappers, prop-setters and track men. The only way to tell how many are missing would be to make a complete census of the company's employees, but the excitement is so great that this cannot be done. On the streets of Pocahontas, on the railroad, and wherever men congregate there are estimates made, but they vary. It is said that it will take ten days to clear the mine of wreckage and slate. The most fortunate feature of the catastrophe is the fact that the mine did not take fire. The mine is equipped with every facility known to modern mining for the safety of its employees.

Four bodies were recovered up to Thursday evening. During Thursday night eleven were brought out. Friday morning at 7:15 o'clock seven bodies were brought out, making a total of twenty-two. About noon a relief party reported that seven more had been found and were being brought out. It is learned from an official source that the management gave the figures at twenty-seven already recovered and twenty missing and believed to be dead.

The town of Pocahontas is plunged in mourning. In a score of homes relatives and friends are watching by the side of dead loved ones.

The mine is reported free from gases and safe for the relief parties to work in.

Bomb for Governor Pennypacker.

Harrisburg, Pa., Oct. 6.—A suspicious looking package containing what appeared to be an infernal machine was found in Governor Pennypacker's mail at the executive mansion. The "machine" is supposed to have been sent by some practical joker.

Another Great Earthquake.

Washington, Oct. 6.—The weather bureau has issued a bulletin announcing that the bureau's seismograph recorded "another great earthquake" beginning at 9:05 p. m. on Oct. 1st, but that the earthquake probably was not disastrous.

A. J. Morse, the old carpet weaver is back to town. Residence 913 Maple St., opposite Peterson's butcher shop, 1011 1/2

HUGHES OPENS CAMPAIGN.

Republican Candidate for Governor of New York Talks to Big Crowd.

New York, Oct. 6.—The Republican state campaign was formally opened in this city with a ratification meeting that attracted a greater crowd than could be accommodated in Carnegie hall.

Charles E. Hughes, the gubernatorial candidate, made the principal speech and the usual campaign enthusiasm found expression in an outburst of music, cheers and shouts of persons' compliment. Several matters touched upon in his letter of acceptance were elaborated by Mr. Hughes and he again emphasized that the question before the voters was one of good citizenship rather than of politics.

Mr. Hughes previously addressed at Earl hall a large number of Columbia university students who later formed a college Republican club.

Another Vessel Wrecked.

Pensacola, Fla., Oct. 6.—Another vessel has been added to the many wrecks now scattered along the gulf coast as a result of the tropical hurricane. The vessel is the schooner Jennie Hurlburt, from Moss Point, loaded with a cargo of lumber, and if the captain and crew did not escape in small boats they have been lost.

Fatal Fire at Minneapolis.

Minneapolis, Oct. 6.—In a fire which destroyed the Hennepin Laundry company building and two adjoining roominghouses, one woman, whose name is unknown, was killed and two firemen were injured in attempting to rescue her.

JOHNSON ENDORSES BRYAN

NELSON ADVISED TO MIND
HIS OWN BUSINESS AND
NOT BUTT IN.

When in Washington last May Governor Johnson, in an interview, said:

"Bryan is the logical candidate of the Democrats for the presidency. He will undoubtedly be nominated at the convention of 1908, and will sweep the Middle West like a whirlwind. * * * If anybody but Roosevelt is nominated Mr. Bryan will be the next president. * * *

"The Democrats of Minnesota are hopeful of doing things this year. I do not know how the people of the state regard our administration, but I believe I will be elected again. I would be sure of it if Senator Nelson here would mind his own business and not go around the state butting in and advising the Republicans to support their own ticket."

St. Paul admits that Minneapolis has the largest dog population of the two cities. Has the hatchet been buried.

CHARLEY TOWNE is to take the stump against Hearst in New York. Towne seems to be drifting away from his old time friend, Billie Bryan, but it is about time he made another political somersault.

THE Minnesota Mascot says "Ole is a pretty hard name to run up against in politics, but what's the matter with Mike." "Sim" says he is going to disprove the statement by being elected sheriff of Crow Wing county this fall.

If the Democrats of the Sixth congressional district ever had any idea of making a fight for congressman, they have apparently abandoned it. The hoped-for republican dissatisfaction did not develop. Those who opposed Mr. Lindbergh's nomination promptly accepted the result of the primaries, and will give him loyal support. There is nothing inviting in a contest against a candidate that has the solid support of a party that has about 10,000 majority in the district. The Democrats care nothing about party organization and have no definite party principles. They fight only when there is a chance to get an office. It is plain that they have given up hope in the Sixth district.—Transcript.

Never risk a joke, even the least offensive in its nature and the most common, with a person who is not well bred and possessed of sense to comprehend it.—Bruyere.

LOCAL NEWS NOTES.

Oscar Anderson went to Duluth this morning.

T. J. Tyler came in from the east today noon.

Another of the land trespass cases has just been up before Judge McClellan, on a demurrer. The case was against the Red River Lumber company for trespass on school lands in Clearwater county. The defendants filed a demurrer and the judge overruled it. The amount claimed by the state is \$15,642.

RAILROAD NEWS

Items of Interest Regarding Railroads and Railroad Employees

Cars Take Wings.

In the light of the fact that the usual car shortage, which is felt again this year is principally because of lack of sufficient motive power, it was interesting to railroad and shippers to learn that the Great Northern road has sent out twenty large engines to relieve the congestion.

"It is the case of fight all the time," says a local agent. "We have no exchange system, and it leaves every road a pirate upon the other. Everywhere that one road can steal cars it will use them to move local freight. We had a bunch of cars located and tracked, and they disappeared one day, and when heard of they were bowling along out west on the Great Northern, moving merchandise for that road. It's so all over the country. It will be a case of shortage until next April, and it will take until that time to get our cars all back."

TRADE IS OF RECORD VOLUME.

And Industry Is Active Beyond Precedent.

New York, Oct. 6.—Bradstreet's review of trade says trade is still of record volume for the season, and industry is active beyond precedent. This, too, despite bad weather and serious crop damage at the South and delayed movement of Western crops to market. A silver lining to the Southern cloud, however, is found in the advance of 1½¢ a pound in cotton, and cooler, more settled weather at the West evokes improvement in retail trade. Car shortages are charged with some responsibility for the rather slow movement of grain, but the firmer tone of cereals is largely due to reports of improving export demand. The volume of traffic on the country's railroads is very large, taxing all available facilities and presaging a sharp congestion when winter-like weather arrives. Pig iron has advanced, the increases ranging from 25 to 50 cents per ton. Business in finished lines is very heavy. New business in steel rails is of moderate proportions. Eastern shoe manufacturers report the September supplementary demand for shoes as disappointing. Leather markets are strong.

HURLED TO THEIR DEATH.

Two Young Men Scuffle and Fall From a Building to the Street.

Cleveland, Oct. 6.—Clutched in each other's arms, two young men fell from the fourth story of the Lake Shore railroad office building and were hurled to their death on the pavement below. The dead men are J. V. Bunts, aged thirty, and Harry Wilfred, aged seventeen years, both of whom were clerks in the office of the superintendent of motive power of the Lake Shore railroad. Bunts was killed instantly and Wilfred died on the way to a hospital.

It is stated that the two men were on the best of terms. They playfully started to wrestle and as they reached the window they slipped and both fell over the low sill.

During their flight through the air from the fourth story to the pavement in which their bodies were bodies were hurled over and over again neither man relaxed the death-like grasp they maintained from the beginning of the scuffle until their bodies struck the pavement.

Turkish Patrol Repulsed.

Sofia, Bulgaria, Oct. 6.—A Turkish patrol, which attempted to cross the Bulgarian frontier near Philipopolis, has been repulsed by the Bulgarian outposts. A Turkish officer was killed in the fighting.

TELEGRAPHIC BREVITIES.

Mrs. Jane B. Newkirk, a well known Indiana authoress, died at La Porte, Ind., Friday, aged ninety-three years. Sir Thomas Lipton was wined, dined and applauded Friday night at a dinner given for him by the mayor and people of Chicago.

Final adjournment of the convention of the Woman's Catholic Order of Foresters, in session at Milwaukee, took place Friday night.

Columbia and Yale divided the intercollegiate tennis honors for 1906 as a result of the concluding rounds of the annual championship tournament at Haverford, Pa.

Ninety-eight persons lost their lives in Minnesota's iron mines during the year ending June 30, 1906, according to the first annual report of Mine Inspector W. H. Harvey.

Who is She?

The Most Popular Lady in Brainerd.

Whoever she is will have a box party of ten at the "Illusion of Beatrice" at the Brainerd Opera House, Friday evening, October 19th.

Miss Maud Fealey, who takes the leading parts is the youngest star on the American stage, and the performance will be a real treat to theatre goers. The public must decide who is the most popular lady, and THE DAILY DISPATCH will present her with ten tickets, for two lower boxes, on Thursday evening, Oct. 18th. Everybody can vote by cutting out coupon below and sending to this office, or by paying daily subscriptions, 50 votes being given for each dollar paid.

THE DAILY DISPATCH.

Gentlemen:—Record this vote in favor of

as the most popular lady in Brainerd and entitled to the box party to the "Illusion of Beatrice" at the Brainerd Opera House October 19th, 1906. Contest ends 5 p. m., Oct. 18.

Calahan, General Agent, Chicago, No. 107 Adams St., Chicago, for further particulars and reservation of berths.

A Young Mother at 70.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters, which have completely cured her and restored her strength and activity she had in the prime of life," writes Mrs. W. L. Gilpatrick, of Danforth, Mo. Greatest restorative medicine on the globe. Sets stomach, liver and kidneys right, purifies the blood, and cures malaria, biliousness and weakness. Wonderful nerve tonic. Price 50c. Guaranteed by H. P. Dunn & Co.'s drug store, Brainerd, Minn.

Gratifying Progress.

"Your son is studying art, I believe. Has he made much progress?"
"Oh, yes. He is able to talk the language quite fluently."—Judge.

MAYOR O'BRIEN TAKEN FOR MR. SLY

Brainerd's Executive is Taken for
The Minneapolis Tribune's
Mysterious Man

WAS IN DEPARTMENT STORE

In Minneapolis Waiting for Wife
And was Sized up as Miss-
ing Man by Clerks

A good story is told by members of his family on Mayor Con O'Brien. The Minneapolis Tribune has been running the portrait of a mysterious Mr. Sly, who has been sent out by that paper, which publishes each day a report of his wanderings in the city the day before and offers a prize for his apprehension. Mayor O'Brien was in one of the large retail stores of that city waiting for Mrs. O'Brien who was doing some shopping when some of the lynx-eyed clerks caught sight of the genial Con and sized him up as the missing man. He was immediately approached by a bevy of pretty girls who came near taking him bodily to the Tribune office to claim the reward. He had hard work to establish his identity but finally succeeded.

Mr. O'Brien has been busy explaining two things ever since. First trying to satisfy his wife as to the reason of the interest the young lady clerk's took in him, and second in trying to square himself with his brother merchants on the charge of going out of town to trade.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulators. They operate easily, tone the stomach, cure constipation.

A Turkish Story.

The Turk, as a rule, is not energetic, but he is capable of sudden bursts of activity. A writer in Cassell's Family Magazine gives an illustration:

He was going home late one night in Constantinople when a man ran by him, pursued by four zaptehs. Directly they caught the man they belabored him vigorously with the butt ends of their guns. The Englishman intervened.

"If he is a thief, why not take him to prison and let him be tried properly? Don't half kill the man without a trial."

"O offend!" said the spokesman of the party, "we don't mind his being a thief. We're only hitting him because of the trouble he gave us to run after him." And that is an offense which the average Turk never forgives.

HAD RUNAWAY LAST NIGHT

W. H. Onstine's Team was Fright-
ened at Cars and Ran
Away Yesterday.

WESLEY SMALL THROWN OUT

Team Tore Loose from Buggy and
Went to Barn—Mr. Small
was not Hurt

W. H. Onstine's spotted ponies became frightened while crossing the tracks at North Broadway late yesterday afternoon and ran away throwing Wesley Small, who was driving, out and badly demolishing the rig. One of the horses is afraid of the cars and became frightened at an engine which was approaching the street and started north at a good speed. Mr. Small who was driving, has but one hand and was unable to control the team. They collided with a load of wood just after crossing the track and Mr. Small was thrown out but not injured. The team broke loose from the buggy and went to the barn and were not injured.

Danger From The Plague.

There's grave danger from the plague of coughs and colds that are so prevalent, unless you take Dr. King's New Discovery for consumption, coughs and colds. Mrs. Geo. Walls, of Forest City, Mo., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them. It prevents pneumonia, cures La Grippe, gives wonderful relief in asthma and hay fever, and makes weak lungs strong enough to ward off consumption, coughs and colds." 50c and \$1.00. Guaranteed by H. P. Dunn & Co.'s drugstore, Brainerd, Minn.

STRAY LEAVES

From a Reporter's Notebook.

Somewhere about a year ago the city council requested the mayor to have the ordinance regarding basement stairways opening on the sidewalks enforced. The ordinance provides that stairways opening upon the sidewalk must be protected by a gate to swing outward and that the gate must be closed when not in use. The council once since repeated the request. As far as can be noticed the ordinance has been complied with in just three instances. The stairway at the Gem saloon has been permanently barricaded. The Fitger Brewing Co., and the Slipp-Gruenhagen company have fitted the stairways of their blocks with the proper protection.

There is a rumor around town to the effect that there was \$50,000 appropriated for betterments in the shops here this fall. A prominent official there was asked about the matter by a Dispatch reporter and said that they spent \$50,000 every little while in betterments and did not know where it went, so to speak. He could see no reason to look for any let up in the work there this winter.

H. G. Sherwood, the official sent here to report on the postoffice site, is a genial gentleman to meet, and can tell a good story in a way to keep a crowd in a roar. He says that he had been overworked this summer and the chief sent him out on this trip as a sort of vacation, but when he gets back he will have to ask about three weeks off to rest up. He is an adept in the art of being able to listen in about ten languages, as the fellow said, and tell nothing, except stories. He tells of one Dakota town where the government was offered a site for \$3500 and the county records showed that it was assessed for \$115, and the law said it should be assessed at full value.

He says that he will be glad to get back to Washington where he won't get silver money shoved at him. If a man is offered a silver dollar there he will shove it back with the query, "Do you think I am running a dray?" Washington has the cleanest money in the world, he says. The government pays all its employees twice a month in new paper money, fresh from the treasury and one dollar and two dollar bills are as plenty there as silver dollars are in the west.

He also tells some interesting stories of the working of the departments. The buildings are now entirely under the control of the treasury department, but it was not so a few years ago and in at least one instance a custodian was put in jail for contempt of court by a United States judge for assigning to some other branch of the government service a room that had been used for the court business. The rule now is, however, that postoffices, no matter how large the city, are to be used for that purpose exclusively and will be built in a severely plain style of architecture and only one story in height.

Can't look well, eat well or feel well with impure blood feeding your body. Keep the blood pure with Burdock Blood Bitters. Eat simply, take exercise, keep clean and you will have long life.

Farm, Home & Garden.

Short, pointed statements of methods and results in Crow Wing county are requested for this column. Address all communications to Farm Editor, Box 1516, Brainerd, Minn.

The city of St. Paul is all torn up over the restoration of corporal punishment in the schools. The most illogical thing a community can do is to enforce the truancy law and then refuse the teacher authority to make the kids mind. A portion of human animals can only be made to be even half way decent by fear of physical pain or discomfort. It is not the moral force of confinement that makes the hardened criminal fear prison, but the physical confinement, and it is so with kids. Many of them will respect nothing but brute force and the fear of pain.

There are some reasons for favoring the English method of discipline in schools. The older boys are held responsible for the behavior of the younger ones, and many a boy who would be a bully and a curse to the community is literally pummeled into a pretty good citizen by his older schoolmates. Of course there is the possibility of the older boys being bullies and abusing their power, but where they are brought up under the system there is less danger. Nearly every one of us can look back to some big boy even in American schools who always insisted on fair play and decency on the school ground, and who who did more to keep the play ground peaceable than did the teachers.

Above all things the parent should be careful never to uphold the child off hand in any dispute with the teacher. If there is reason to believe the child has been abused do not tell it so. Go quietly to the teacher and get the other side of the story. The teacher is much less likely to be prejudiced than the child. With her it is only an incident in the handling of one out of forty little heathens. With the child it is, for the time being, the one thing in the world. If you find the teacher has been in the wrong tell her so, kindly and fairly, but do not tell the child so. It will only make it look for more grievances, and the worst person in the world to live with is the one that always has a grievance.

Why is it that so many farmers send their cream to St. Paul and Duluth? Does it not them more money than when sold to Crow Wing county creameries? If not, why do they do it? The building up of the local creamery is necessary to the building up of the dairy business in Crow Wing county. The store keepers hate to handle dairy butter, at least in excess of local demand and they can not pay as much for it as the butter fat is worth at the local creamery, and you save the expense and work of making it up. If you have not given the local creameries your patronage arrange to do so next season. And induce your neighbor to do so also. It costs nearly as much to make 100 pounds of butter a day in a creamery as it does 200 and the more cream a creamery gets the closer margin can it do the business on, and the better price can it pay you for your cream.

A Badly Burned Girl

or boy, man or woman, is quickly out of pain if Bucklen's Arnica Salve is applied promptly. G. W. Welch, of Tekonsha, Mich., says: "I use it in my family for cuts, sores and all skin injuries, and find it perfect." Quickest pile cure known. Best healing salve made. 25c at H. P. Dunn & Co.'s drug store, Brainerd, Minn.

Special Services at St. Francis Church

The devotions of the forty hours will be celebrated in St. Francis Catholic church on next Monday, Tuesday and Wednesday, 8th, 9th and 10th of October. The following priests from other parishes in the diocese will attend and take part in the services: Very Reverend T. Corbett, cathedral Duluth, Minn.; the Reverend John Limmer, Duluth; Reverend Francis Hufnagel, Crookston, Minn.; and Very Reverend Joseph Wurm, of Aitkin, Minn. The program is as follows:

MONDAY.

Morning masses at 7 o'clock and 8 o'clock. Solemn high mass at 9 o'clock, sermon by Very Reverend Joseph Wurm. Procession of the Blessed Sacrament and solemn exposition. Monday evening services at 7:30 p. m., with sermon by Very Reverend T. Corbett, of Duluth.

TUESDAY

Morning sermon at high mass at 9 o'clock a. m. by Reverend John Limmer and evening sermon by Reverend F. Hufnagel, of Crookston.

WEDNESDAY

Closing exercises at 9 o'clock. High mass, benediction and sermon. N. B. Every day during the exercises confessions will be heard from 3 o'clock to 5 o'clock p. m. and 8:30 p. m. to 10:30 p. m.

Blood Poisoning

results from chronic constipation, which is quickly cured by Dr. King's New Life Pills. They remove all poisonous germs from the system and infuse new life and vigor; cure sour stomach, nausea, headache, dizziness and colic, without griping or discomfort. 25c. Guaranteed by H. P. Dunn & Co. druggists, Brainerd, Minn.
